🗨️ Fetch Data & Train Model

⚡ Load Cached Model

Data source: Jolpica F1 API
Algorithm: XGBoost (gradient boosting)
Key features: Grid position, rolling driver form, circuit win rate, constructor performance

MACHINE LEARNING · FORMULA 1 · PREDICTION

Grand Prix Winner Predictor

Train an XGBoost model on 14+ years of F1 race data, then predict win probabilities for any upcoming race lineup.

 Run Prediction

Predicted Win Probabilities — Silverstone GP

	Max Verstappen Red Bull · Grid P1 42.6% win chance
	Lewis Hamilton Mercedes · Grid P3 32.1% win chance
	Charles Leclerc Ferrari · Grid P2 25.3% win chance
